

OK, but how are you going to do that?

A real coalition. One goal. No compromise.

No false promises, new programs, spending, grants or gifts to buy votes. No "star" candidates who are looking for a limousine. Not right, not left.

A single goal: a better future for all Quebecers, regardless of their values, their priorities, their language, their beliefs. A true Government of the people, for the people. No cronyism. No wastefulness. No political correctness, just common sense.

You think it's impossible to make a difference?

In 2014, the PLQ was elected with 29.23% votes. People who did not vote... 28.56%

You could have elected 49 representatives without even having someone change their vote!

Add only 2% and you form an overwhelming majority:

The Government of common people sick of politicians.

You really want to change politics, you need to change the way you look at politics, the way you vote.

That's what party 51 is all about, a better future for everyone!

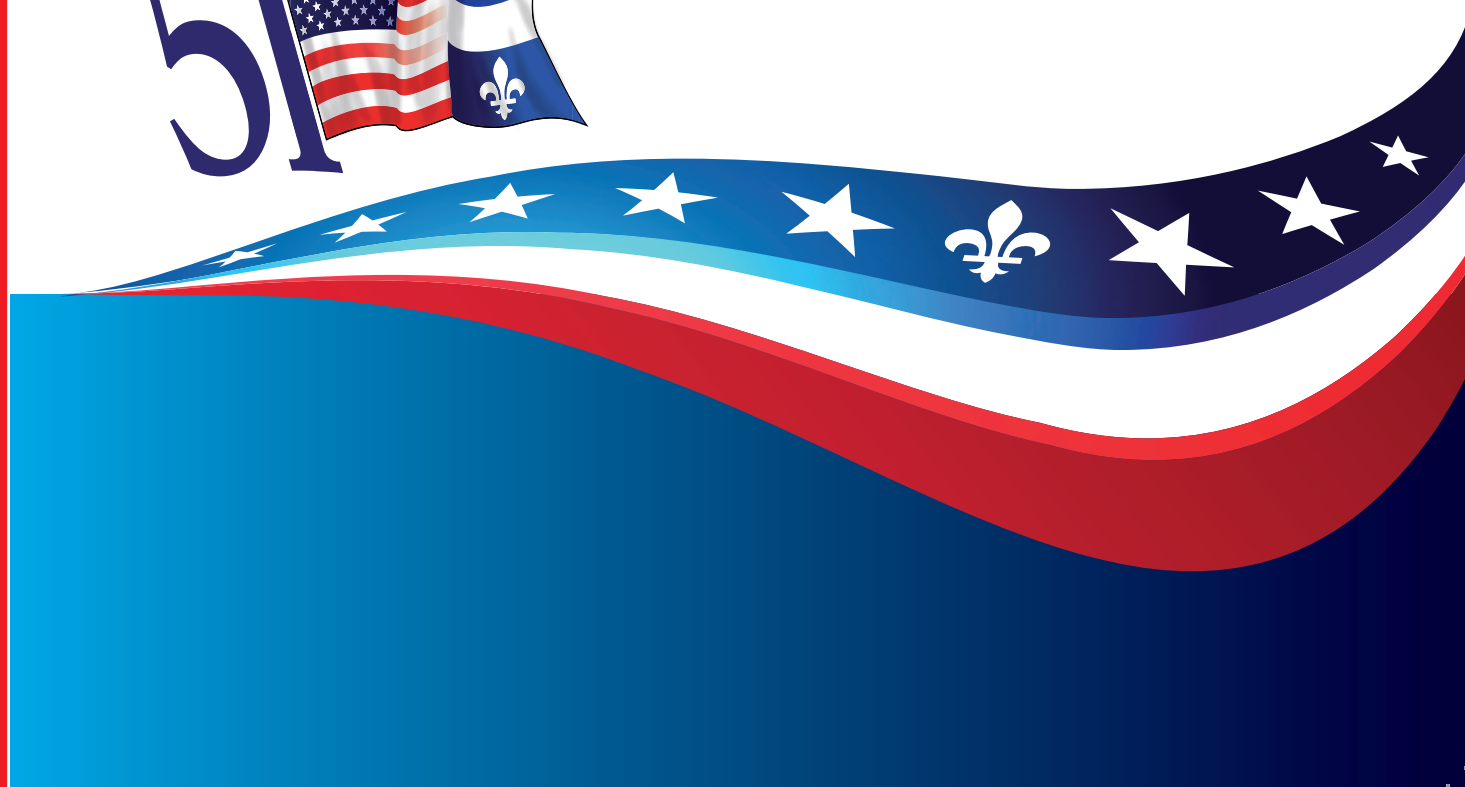

You can become a member for free.

At Party 51, we believe in equality for all. Every citizen should be able to decide the future of his nation. In order to ensure a real democracy accessible to all, membership is completely free.

Liberty, security, prosperity

We don't want a job, we want TO CLEAN UP SHOP

The real problem with politics is career politicians. They always try to save their job first. Are you tired of people who sell the future of your children to get re-elected?

So are we. Politicians are all the same? Stop voting for politicians. At Party 51, all of our candidates are people like you, who have the same problems and who have lost confidence in the "political class".

With us, no doublespeak, no party line, no sugar coated easy solutions.

OK, so why anyone would want to become Americans?

Simply because it is the best solution for the future of all Quebecers. Why?

A stronger dollar

No more foregoing vacation because of the exchange rate. More purchasing power. Greater stability.

A prosperous economy

Cheaper products, better services, less income and sale taxes, no tariffs and better price for our resources.

More freedom

A U.S. State is completely sovereign, so Quebecers could decide all their laws according to their needs and priorities, without federal intervention. They are not a country, they are 50 countries with a common defense.

More security

The United States have been created to ensure respect of the cultures and specific laws of each of its States, being united by principles of freedom, equality and democracy. Quebec would be protected by the most powerful army in the world.

Better protection of our culture and our language

Did you know that the United States has no official language?

In addition, article 2 of the Constitution of Quebec proposed by the party 51 makes French the official language of the State so government service, laws and legal acts would be guaranteed to be in French. However, people would not be deprived of the possibility of services in English, assuring equitable treatment for all.

More control on the really important decisions.

Quebecers could take part in the decisions that will shape the world. Quebec would be part of the 15 States with the most representatives in Congress, enough to influence the outcome of almost all votes.

In addition, every State has two senators, regardless of population, ensuring that a small State is never eclipsed by a bigger one.

Yes but what about healthcare, our pensions, the environment, our natural resources, firearms?

A member of the Union State may adopt all laws and programs it sees fit, so Quebec could keep all of its programs, such as pensions and health insurance.

This explains that California is world leader in environment whereas other States are limited to the minimum federal standards.

Natural resources belong to the States.

The same goes for firearms. Although the 2nd amendment to the Constitution guarantees the right to own a gun, it doesn't specify the terms of ownership. Many of the southern States are very permissive and several northern States have significant restrictions: licenses, gun registry, owner registration, etc. The choice is ours.
